To whom it my concern

RE: Swimming Pool & Water Activities- Lifesaver on Duty

We are pleased to announce that swimming activities at Kwalata Adventure Camp are now fully operational and available for all school tours and camping programs.

As you may recall from our previous communication, the Department of Education implemented regulations requiring certified lifeguards for all swimming pool activities during school tours. We are delighted to inform you that we have successfully completed the certification process and now have qualified, certified lifesavers on duty at our pool facilities.

**All our lifeguards have:**

- ◆ Full lifeguard certification issued by Lifesaving SA (NQF unit standard)
- ◆ Valid identification
- ◆ Updated First Aid certificates

These documents are readily available upon request during the application process for tour permissions, ensuring full compliance with departmental regulations.

**Safety Operating Procedures (S.O.P.)** We have developed comprehensive Standard Operating Procedures for pool safety that meet and exceed Department of Education requirements. Additionally, we have created a detailed safety plan outlining risk assessment and safety measures (HIRA) specifically for school groups. These documents are available and can be submitted as part of your safety plan to the Department of Education.

These documents will assist you in completing your risk assessment forms and provide peace of mind regarding the safety protocols in place for your students.

The swimming pool area is now open and safely integrated into our adventure camp program. Our certified lifeguards maintain constant supervision during all swimming activities, prioritising the safety and enjoyment of all participants.

Should you have any questions or wish to include swimming activities in your upcoming school tour, please contact us to discuss your requirements.

We look forward to welcoming you and your students to our fully operational swimming facilities.

Sincerely,

---

Trevor Keith
