

Changes to Our Water Activities: Closing of Swimming Pool

Over the years, our swimming pool has been a place of fun, learning, and great memories. However, after careful consideration, we have made the decision to **permanently close the swimming pool**.

This decision was not made lightly. Due to increasing safety requirements, regulatory obligations, maintenance demands, and a steady decline in pool usage, we believe our resources can be better invested in activities that provide greater value and enjoyment for our participants.

The good news is that water fun is not going away!

We are excited to continue offering a variety of engaging water-based activities, including:

- Inflatable water slides
- Water games and challenges
- Team water activities (No pools | dams | rivers)
- Interactive splash and adventure experiences

These activities provide all the excitement, laughter, teamwork, and fun that participants love, while allowing us to maintain a safe and sustainable programme for the future.

We appreciate your understanding and support as we continue to focus on creating memorable outdoor adventure experiences for everyone at camp.

We look forward to many more years of water-filled fun — just not in a swimming pool!
